COMPARISON OF BUSINESS OBJECTIVES WITH ACTUAL BUSINESS PROGRESS

The table below sets out the Directors' analysis by comparing the business objectives of the Group as set out in the Prospectus with the Group's achievement of these objectives up to 30 June 2018. These business objectives are in place with a view to generating long-term value to the Company and the Shareholders.

Business Objectives	Actual Business Progress up to 30 June 2018
1. Continue to enhance the Group's position in the hot spring and hotel industry	The Group's effort in respect of enhancing its position in the hot spring and hotel industry is still ongoing.
(i) Replicate the Group's business model to operate new hot spring resorts and hotels	During the Period, the Group recognised revenue arising from provision of consultancy services engaged in the second half of 2017 in relation to strategic planning in the early stage of project development to various leisure hotels and resorts in Guangdong Province, Sichuan Province and Qinghai Province. In addition, during the Period, the Group entered into a new consultancy service agreement with a third party regarding provision of consultancy services in relation to strategic planning in the early stage of project development to a leisure hotel and resort in Guangdong Province. Such consultancy services contributed revenue of approximately RMB6.9 million to the Group in the Period.
(ii) Provide management services to other hot spring resort owners	
2. Plan to expand the tourism property development business of the Group	To prepare for the expansion of the tourism property development business, the Group has adopted standardised development procedures so as to achieve a more efficient use of capital and other resources, and to complete new tourism property projects in a timely manner while maintaining an effective control over costs. In December 2017, Heart of Spring Apartments passed all the necessary development inspection and acceptance, and was granted pre-sale permit. The Group commenced pre-sale of Heart of Spring Apartments since December 2017. As at 30 June 2018, 130 residential units and 1 commercial unit of Heart of Spring Apartments have been pre-sold. The Group will continue to pre-sell properties at Heart of Spring Apartments in the rest of 2018 and expects properties to be delivered to its customers in the fourth quarter of 2018.

3. Continue to enhance the “*Gudou*” brand across the PRC by providing quality products and services to the customers
- The Group has implemented strict quality control standards and closely monitored the product or service quality, and the workmanship of its contractors throughout the property development process in relation to its tourism property development business. During the Period, the Group has also organised a number of promotional events to promote the “*Gudou*” brand, such as:
- Chinese new year celebrations in February and March 2018
 - Crab festival from April to June 2018
 - Water parties from April to June 2018
 - Tuen Ng Festival from May to June 2018
 - World Cup Seasons from June to July 2018

PRINCIPAL RISK AND UNCERTAINTIES

The principal risks and uncertainties in implementing its business strategies include the following:

- (i) the Group’s reliance on existing spring water sources represents a material risk to its business if the mineral content and quality of the hot spring from such sources are adversely affected due to changes in the surrounding geological environment;
- (ii) the Group may not be able to obtain, extend or renew qualification certificates and relevant PRC government approvals for its tourism property developments or other business activities;
- (iii) the Group may not be able to identify attractive acquisition opportunities, or make acquisitions on attractive terms or obtain sufficient financing for completion of such acquisitions;
- (iv) operations of its hot spring involves the risks of accidents, illnesses, environmental incidents which may negatively affect the perception of guests on the safety and hygiene of the Gudou Hot Spring Resort, which could in turn negatively impact the “*Gudou*” brand or the Group’s reputation;
- (v) if the Group is unable to obtain necessary capital resources or suitable sites for tourism property development in a timely manner and at a reasonable cost, the Group’s property portfolio and future profitability could be adversely affected; and

- (vi) the Group may not be able to complete the development or construction of its current or future projects on time or within budget which may be subject to the actual circumstances during the construction period including supply of skilled labour and unforeseen environmental problems.

In addressing these risks, the Group has constantly monitored status of its spring water sources and engage hot spring experts for conducting annual check on the quality and quantity of its spring water sources. The Group has also maintained an internal control system for checking the expiry date of its qualification certificates and relevant PRC government approvals. This allows the Group to ensure that it has all requisite consent and licence to conduct its businesses lawfully. In addition, the Group will take a cautious approach when considering potential acquisition opportunities and will only do so if and when the Group has sufficient financing resources and if it thinks that it is in the interest of the Group to do so.

The other risks and uncertainties incidental to the Group's business operations are detailed further in the Prospectus.

USE OF PROCEEDS FROM THE PLACING

Net proceeds in the amount of approximately HK\$130.6 million were raised from the Placing. As at 30 June 2018, approximately HK\$79.3 million from the net proceeds raised from the Placing had been applied towards the repayment of shareholders' loans. Further, the Group has applied (i) approximately HK\$44.4 million from the net proceeds raised from the Placing towards the Group's construction and development for three property development projects; (ii) approximately HK\$1.6 million towards enhancing Gudou Hot Spring Resort and its existing facilities; and (iii) approximately HK\$5.3 million as the Group's working capital since Listing.

MANAGEMENT DISCUSSION AND ANALYSIS

Business review

The Group is principally engaged in the operation and management of Gudou Hot Spring Resort and the development and sale of tourism properties within Gudou Hot Spring Resort.

For the six months ended 30 June 2018, revenue of the Group was approximately RMB65.3 million, representing a decrease of 12.1% compared to the corresponding periods in 2017 (six months ended 30 June 2017: RMB74.3 million). Loss for the six months ended 30 June 2018 amounted to RMB8.5 million (loss for the six months ended 30 June 2017: RMB11.9 million).

Hot Spring Resort and Hotel Operations

The Group's hot spring resort and hotel operations business grew steadily in the first half of 2018 compared with the corresponding period in 2017. The Group's turnover derived from hot spring resort and hotel operations increased by approximately 17.7% to approximately RMB65.3 million when compared to the corresponding period of previous year. During the Period, notwithstanding

that the Room Revenue generated from the Group's five themed hotel complexes decreased by approximately 27.6% for the six months ended 30 June 2018 compared to that for 2017, such decrease in Room Revenue was offset by the increase in admission fees which was attributable to increase in admission ticket prices and increase in number of admissions due to holding of more themed events in the Gudou Hot Spring Resort.

In addition, during the Period, the Group recognised revenue arising from provision of consultancy services engaged in the second half of 2017 in relation to strategic planning in the early stage of project development to various leisure hotels and resorts in Guangdong Province, Sichuan Province and Qinghai Province. In addition, during the Period, the Group entered into a new consultancy service agreement with a third party regarding provision of consultancy services in relation to strategic planning in the early stage of project development to a leisure hotel and resort in Guangdong Province. Such consultancy services contributed revenue of approximately RMB6.9 million to the Group in the Period. The Group also recorded an increase in revenue generated from catering by approximately 16.8% and conference room services by 117.0%.

The Room Revenue generated from the themed hotel complexes decreased by approximately 27.6% in the Period compared to that for 2017. The Total Occupied Room Nights decreased by approximately 19.2% during the Period and the Occupancy Rate of its themed hotel complexes decreased from approximately 40.7% for the six months ended 30 June 2017 to approximately 34.3% for the corresponding period in 2018. The average room rate of the Group's themed hotel complexes also decreased from approximately RMB275.0 for the six months ended 30 June 2017 to approximately RMB246.4 for the six months ended 30 June 2018, primarily attributable to promotion activities of the Group.

Tourism Property Development

During the Period, the Group did not record any revenue from sale of tourism property as compared to approximately RMB18.8 million for the six months ended 30 June 2017 as most units of Mountain Seaview Vacation Residence were delivered by the fourth quarter of 2017.

In December 2017, Heart of Spring Apartments passed all the necessary development inspection and acceptance, and was granted pre-sale permit. The Group commenced pre-sale of Heart of Spring Apartments since December 2017. As at 30 June 2018, 130 residential units and 1 commercial unit of Heart of Spring Apartments have been pre-sold. The Group will continue to pre-sell properties at Heart of Spring Apartments in the rest of 2018 and expects properties to be delivered to its customers in the fourth quarter of 2018.

According to the revenue recognition policy, the Group will recognise revenue from property sales when the construction is completed and properties are delivered to its customers. If the sale of Heart of Spring Apartments proceeds in accordance with its development schedule, the Group expects that the delivery of Heart of Spring Apartments in the fourth quarter of 2018 will have a positive effect on the full year results of the Group for 2018.

Financial review

Revenue

For the Period, the Group recorded turnover of approximately RMB65.3 million (corresponding period in 2017: approximately RMB74.3 million), representing a decrease of approximately 12.1% when compared with the previous year.

The decrease in turnover was primarily attributable to the absence of revenue generated from the Group's tourism property development business during the Period (corresponding period in 2017: approximately RMB18.8 million). The Group's revenue generated from hot spring resort and hotel operations increased by approximately 17.7% to approximately RMB65.3 million, primarily attributable to increase in admission fees and catering income and revenue arising from provision of consultancy services by the Group, partially offset by decrease in Room Revenue generated from the Group's themed hotel complexes attributable to decrease in Total Occupied Room Nights and average room rate of the Group's themed hotel complexes during the Period.

Cost of Sales

The Group's cost of sales for the Period was approximately RMB50.1 million, representing a decrease of approximately 8.5% from approximately RMB54.8 million in respect of the six months ended 30 June 2017.

Such decrease was primarily due to absence of costs of sales from the Group's tourism property developments as the Group did not conduct any sale of tourism property during the Period, partially offset by mild increase in costs of sales of the Group's hot spring resort and hotel operations. The increase in costs of sales of the Group's hot spring resort and hotel operations was primarily attributable to increase in staff costs, increase in rental expenses and increase in depreciation of property, plan and equipment, partially offset by decrease in energy expenses.

Gross Profit and Gross Profit Margin

The Group's gross profit amounted to RMB15.2 million for the Period, representing a decrease of approximately RMB4.3 million or 22.2% from approximately RMB19.5 million for the same period of last year, which was mainly due to absence of revenue generated from the Group's tourism property development business.

The Group's gross profit margin for the Period decreased by approximately 3.0% to approximately 23.2% as compared to approximately 26.2% for the same period of last year. Such decrease in the Group's gross profit margin for the Period was primarily due to absence of revenue from the Group's tourism property development business which in general generated higher gross profit margin. However, the gross profit margin of hot spring resort and hotel operations increased significantly in the Period, from approximately 15.1% for the six months ended 30 June 2017 to approximately

23.2% for the six months ended 30 June 2018, primarily attributable to the income derived from consultancy services, which was commenced by the Group in the second half of 2017 in relation to strategic planning in the early stage of project development to various leisure hotels and resorts, recognised during the Period.

Loss before Tax

The Group's loss before tax amounted to RMB3.6 million for the Period, representing a decrease of approximately 44.1% from approximately RMB6.5 million for the same period of last year, which was attributable to higher fair value gains on investment properties, and decrease in selling expenses and finance costs, partially offset by decrease in revenue.

Income Tax Expenses

The Group's income tax expenses for the Period decreased by approximately 10.7% or RMB0.6 million to approximately RMB4.8 million as compared to approximately RMB5.4 million for the same period of last year. Such decrease in the Group's income tax expenses was attributable to the absence of land appreciation tax as the Group did not conduct any sale of tourism properties during the Period, partially offset by the increase in deferred tax expenses due to higher fair value gains on investment properties during the Period.

Net Loss

The Group's loss for the Period decreased by approximately RMB3.5 million, or 28.9% to approximately RMB8.5 million for the six months ended 30 June 2018 as compared to approximately RMB11.9 million for the same period of last year, which was primarily due to increase in fair value gains on investment properties and lower selling expenses and finance costs during the Period, partially offset by decrease in revenue.

Liquidity and Financial Resources and Capital Structure

During the Period, the Group's operations were funded by a combination of internally generated cash flows and borrowings.

As at 30 June 2018, the Group had bank and cash balances of approximately RMB44.4 million which were denominated in RMB and HK dollars.

The Group's outstanding capital commitments as at 30 June 2018 amounted to approximately RMB9.0 million (31 December 2017: approximately RMB5.1 million). Such commitments primarily related to construction in progress and properties held for sale of the Group. Such outstanding commitments are expected to be funded by internal funds and/or bank borrowings.

As at 30 June 2018, the Group had an outstanding bank loan of RMB330.4 million which were denominated in RMB and HK dollars and among which RMB57.5 million were fixed rate borrowings. The Group repaid bank loans of approximately RMB21.6 million, which was in line with the Group's repayment schedule. The maturities of borrowings are disclosed in note 12 to the unaudited condensed consolidated financial statements of the Group. The proceeds from the borrowings were primarily used for capital expenditure, working capital and operating expenses.

The Group's gearing ratio as at 31 December 2017 and 30 June 2018, which was calculated by dividing its total borrowings by its total equity as at those dates, was approximately 0.8 and 0.8 respectively. The gearing ratio as at 30 June 2018 was stable primarily attributable to insignificant changes in total borrowings and total equity.

The Group remains committed to a high degree of financial control, a prudent risk management and the effective utilisation of financial resources. In order to achieve better cost control and minimise costs of funds, the Group's treasury activities are centralised and cash is generally deposited with banks and denominate in RMB, followed by HK dollars.

Charges on Group Assets

As at 30 June 2018, an amount of approximately RMB523.4 million (31 December 2017: approximately RMB416.5 million) was pledged to banks to secure bank facilities granted to the Group.

Significant Investments/Material Acquisitions and Disposals

The Group had not made any significant investments or material acquisitions and disposals of subsidiaries during the Period.

Contingent Liabilities

As at 30 June 2018, the Group did not have any significant contingent liabilities.

Exposure to Fluctuations in Exchange Rates

The Group's revenue and costs are primarily denominated in RMB. Some costs may be denominated in HK dollars. The Group currently does not have a foreign currency hedging policy. However, the Directors continuously monitor the related foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Human Resources

As at 30 June 2018, the Group had a workforce of 677 full-time employees (including the Directors) of whom approximately 98.5% were employed in the PRC and approximately 1.5% in Hong Kong. The Group's staff costs for the six months ended 30 June 2017 and 2018 amounted to approximately RMB27.9 million and RMB29.8 million, respectively. The Group hires part-time employees from time to time to cope with additional staffing requirements for our hot spring resort and hotel operations during peak seasons. Our employees in Hong Kong are required to participate in the Mandatory Provident Fund scheme under which we are required to contribute a fixed percentage of the employees' payroll costs (up to a maximum of HK\$1,500 per month) to the scheme. For the employees of our PRC subsidiary, the Group makes contributions to various government sponsored employee benefit funds, including housing provident fund, basic pension insurance fund, basic medical insurance, unemployment insurance, maternity insurance and work related injury insurance funds in accordance with applicable PRC laws and regulations.

To uphold the “*Gudou*” brand image and to ensure the quality of the Group's service, all the new hotel staff are required to attend a three-day hospitality pre-job training. The Group also provides hospitality training to the hotel staff on a monthly basis. The Group provides the employees with work safety training to enhance their safety awareness.

The Group generally recruit its employees from the open market. The Group formulate its recruitment policy based on market conditions, business demands and expansion plans. The Group offers different remuneration package to the staff based on their position. In general, the Group pays basic salary and incentive, based on years of service, to all of its employees. The Group's sales personnel and service personnel will also receive additional pay based on their individual skills and performance.

RESERVES

Movements in the reserves of the Group for the six months ended 30 June 2018 are set out in the unaudited condensed consolidated statement of changes in equity set out above.

DIVIDENDS

The Board does not recommend the payment of any interim dividend for the six months ended 30 June 2018. During the six months ended 30 June 2017, no interim dividend was paid or declared.

BUSINESS PROSPECT

The Group's hot spring resort and hotel operations business grew steadily in the first half of 2018 compared with the corresponding period in 2017. The Group will continue to diversify the streams of revenue by providing consultancy services to potential leisure hotels and resorts and enhancing income from admission and providing conference room services.

The Group will also continue to operate Gudou Hot Spring Resort and organise different promotional events, including but not limited to those to be held at the Group's waterpark, with an aim to increasing both Room Revenue and admission and catering income in the summer. However, the Group does not expect the revenue to increase until the end of third quarter of 2018 as the autumn and winter seasons are ordinarily more attractive for hot spring patrons than other seasons in the year due to cooler weather.

Regarding tourism property development, pre-sale of properties at Heart of Spring Apartments remains the focus in the rest of 2018. If the sale of Heart of Spring Apartments proceeds in accordance with its development schedule, the Group expects that the delivery of Heart of Spring Apartments in the fourth quarter of 2018 will have a positive effect on the full year results of the Group for 2018.

In order to maintain good corporate governance and fully comply with such code provision, the Board will regularly review the need to appoint different individuals to perform the roles of chairman and chief executive officer of the Company separately.
2. Code provision A.6.7 of the CG Code stipulates that the independent non-executive Directors should attend general meetings and develop a balanced understanding of the views of Shareholders.
